

設定

Flag

// do something change view

src011View.addEventListener('src011', event => {

let isRequesting = false;

const DOM = event.target;

isRequesting = false;

fetch(url);

.then(res => {

isRequesting == true;

if(hasScrolled(DOM) > 0.9 && !isRequesting) {

若 is Requesting 為 false

再發送 Request

//do something change view

src011View.addEventListener('src011', event => {

let isRequesting = false;

const DOM = event.target;

isRequesting == false;

fetch('url');

.then($\text{res} \Rightarrow \{$

isRequesting == true;

```
if(hasScrolled(DOM) > 0.9 && !isRequesting) {
```
