

subscriptiōn

• observable 訂閱後回傳

的物件

可拿來退訂

(unsubscribe)

● 可以其他 subscription

合併

```
import { from } from 'rxjs';
import { map, filter } from 'rxjs/operators';

var sub = from([1, 2, 3])
    .pipe(
        map(x => x + 1),
        filter(x => x % 2 === 0)
    );
    .subscribe({
        next: x => console.log(x),
        error: err => {},
        complete: () => {},
    });
```
