subscription

- observable 訂閱後回傳的物件

- 可拿來退訂 (unsubscribe)

- 可以其他 subscription 合併

```javascript
import { from } from 'rxjs';
import { map, filter } from 'rxjs/operators';

var sub = from([1, 2, 3])
          .pipe(
            map(x => x + 1),
            filter(x => x % 2 == 0)
          );
          .subscribe({
            next: x => console.log(x),
            error: err => {},
            complete: () => {},
          });
```
